

In a complicated world, we simply do what we say

## Our History

dataplex was founded in 1996 and has been helping clients to maximise their opportunities ever since.

We are respected within the industry for our exceptional quality of work, independence and flexibility in responding to client needs.

## Our Difference

dataplex provides an end-to-end ICT Advisory and delivery capability founded on a superior breadth of knowledge and expertise in IT Advisory, Professional Services and Service Desk.

Our expertise ensures the:

- ☐ CFO has predictable costs for IT operations and business improvement projects
- ☐ CIO can deliver IT projects that are innovative, effective and aligned to the business
- ☐ IT Department can become a strategic asset rather than a cost centre.

## dataplex is about transforming businesses.

dataplex is the UK's leading independent IT Advisory company offering advice, solutions and support in Information and Communications Technology. Our mission is to help business, government and public administration to work better.

We are a young, dynamic company that's serious about what we do. We have a team of experienced and creative people who are passionate about their work. dataplex appreciates that IT investment must result in greater efficiency and offer value for money. Everything we do is designed to be cost effective and deliver a clear and rapid ROI.

dataplex can assist you at any stage in your business cycle from CXO Advisory Services through to technical design, implementation and support.

## Benefits of dataplex

There are multiple benefits to working with dataplex, but in essence we believe that the following benefits are realised through every engagement we undertake with you:

- ☐ We enable you to deliver business agility and resilience by the effective use of technology
- ☐ We ensure that you are secure and compliant
- ☐ We assist you in delivering a competitive edge and value to your stakeholders.

We adhere to these values in all the projects we undertake offering you unrivalled service and commitment every step of the way.

*"The right expertise, ethos and enthusiasm to excel in this project and deliver above and beyond our expectations"*  
**IT Manager, BetFred.**

## Our Values

We know that it is our staff that makes us successful, and we have a number of people values in the business that everyone upholds:

- ♣ Respect
- ♣ Innovation
- ♣ Collaboration
- ♣ Excellence
- ♣ Passion.

Our solutions span across the infrastructure and security landscape from physical to virtual and desktop to datacentre.

**In a complicated world  
we simply do what we say**

*"dataplex took time with us to understand our requirements, our security and infrastructure environments and the needs of the business going forward."  
ICT Manager, Cotton Traders.*

## What we do.

dataplex take our value statement seriously; "In a complicated world we simply do what we say". We understand that technology can be challenging and that aligning the needs of the business and IT together can be just as complicated, so we keep our model simple. Our technical capability is second to none within the industry and we provide clarity across the following business technologies:

## dataplex transforms the way you use IT.

dataplex will make you think twice about how you currently use IT through creative thinking, pragmatic advice and a wealth of experience.

dataplex can assist you at multiple levels in your business improvement and IT transformation projects. We can assist you with strategic advice and planning, technical due diligence and implementation and a managed service desk allowing you to manage IT innovation while we ensure operational uptime. Our three engagement levels are:

- ♣ IT Advisory Services
- ♣ Professional Services
- ♣ Service Desk.

Where ever you engage with us you can be certain that we have the ability to transform the way you think about, and deliver IT back to the business.
